Addis Ababa, Ethiopia

Professional Summary

Passionate and detail-oriented Fullstack Web Developer with a strong foundation in building responsive, scalable, and user-friendly web applications. Skilled in modern technologies including React, Tailwind CSS, TypeScript, Redux, Django, and PostgreSQL. Proven experience delivering production-ready solutions through internships, personal projects, and freelance collaborations. A fast learner with a deep passion for UI/UX design, backend architecture, and clean code.

Skills

- **Frontend:** React.js, Redux, Tailwind CSS, Styled Components, JavaScript, TypeScript, HTML5, CSS3
- **Backend:** Django, Django REST Framework, PostgreSQL, API development, Authentication (JWT, Djoser)
- **Tools & Platforms:** Git, GitHub, Vite, VS Code, Postman, Docker (intro), Figma, Trello, Linux (basic CLI)
- **Soft Skills:** Problem-solving, teamwork, remote collaboration, time management, attention to detail

Experience

Frontend Developer and UI/UX Intern

- Kuraz Tech | Jul 2024 – Sep 2024 · Addis Ababa (Hybrid)
- Contributed to a complete Restaurant Management System using React, Redux, and Tailwind CSS
- Built reusable components and responsive UIs, improving maintainability and load speed
- Awarded Best UI/UX Design and nominated Best Frontend Developer during internship demo day

Backend Developer Intern

- Ewenet Communication PLC | Jul 2024 – Sep 2024 · Addis Ababa (Hybrid)
- Built and tested Django REST APIs for service-based applications
- Implemented JWT-based authentication and PostgreSQL optimization
- Assisted in admin dashboard functionalities and secure API integrations

Software Developer Intern

- Tria PLC | Nov 2023 – Jan 2024 · Addis Ababa (On-site)
- Participated in the Quality Assurance team for Learning Management System (LMS) project
- Conducted manual and exploratory testing to ensure feature stability and usability
- Helped identify bugs and collaborated with developers to resolve issues

Projects

TheKitchen RMS

- **Fullstack Developer**
- Restaurant management system built with modular React components and Tailwind CSS UI and Django at backend.
- *Description* – The system streamlines restaurant operations by managing menus, orders, staff, reservations, and reports, providing an efficient and user-friendly interface for both staff and administrators.

Boran Realstate Documnt Archive System

- **Frontend Developer**
- Document archive system built with React, Tailwind CSS, Redux for state management, and Laravel at the backend.
- *Description* – The system streamlines document management for Boran Real Estate by enabling secure file uploads, smart categorization, and controlled access. It ensures quick retrieval, improved efficiency, and minimizes dependence on paper-based records

Bete Realstate Listing

- **Fullstack Developer**
- Real estate listing application built with React, Tailwind CSS, Redux for state management, and Django at the backend.
- *Description* – The platform enables users to browse, search, and filter property listings, while allowing agents to post and manage listings. It also includes a real-time chat feature to facilitate direct communication between buyers and agents, enhancing user engagement and support throughout the property search process.

EthioBooking web app

- **Fullstack Developer - onGoing project**
- EthioBooking is a comprehensive booking platform built with React, Tailwind CSS, Redux for state management, and Django at the backend.
- *Description* – The system enables service providers to create profiles, list services, manage availability calendars, and receive bookings from customers. It streamlines appointment scheduling, payments, and notifications, offering a seamless experience for both providers and clients.
